

## **Congratulations on Your PDA Three-Year Accreditation!**

Dear Paul Mallari:

We are pleased to report to you that you have been accredited for a period of three years for your point-of-care dispensing program. This is the first accreditation that the Physician Dispensing Association (PDA) has awarded to you.

By pursuing and achieving accreditation, you have demonstrated that your program meets the highest standards for quality and is committed to pursuing excellence. You can now display the PDAA Accreditation seal on your website, and any other marketing communication mediums. Also you will be included in our Accredited Physicians section of the PDA website.

This accreditation decision represents the highest level of accreditation that can be awarded for point-of-care dispensing, and shows your conformance to the PDA standards. A physician receiving a Three-Year Accreditation has put his/her program through a peer review process and demonstrated to a team of surveyors its commitment to offering programs and services that meet the highest quality.

PDA is an independent accrediting body whose mission is to promote the quality, safe, and optimal outcomes of point-of-care dispensing through an accreditation process and continuous improvement consultative services.

Sincerely,

A handwritten signature in black ink, appearing to read 'AP', with a long horizontal flourish extending to the right.

Anthony Phillips  
President  
Physician Dispensing Association
